**If you can tie a knot... you can tie-dye your own original fashions with Rit!**

Tie-dyeing with Rit<sup>®</sup> is easier than you think! With the simple knots shown here, you get effects that have an expensive "boutique" look. Master the few easy knots, then let yourself go!

### What Fabrics Tie-Dye Best.

You can tie-dye all washable fabrics except polyesters, acrylics, fiber glass, and nylons. For really striking results use latex acetate, rayon, velveteens, velvets, silk. And, of course, all cottons and nylon tie-dye beautifully.

### What Kind of Dye to Use.

Either Rit Liquid Dye or Rit Powder Dye can be used. One bottle of Rit Liquid equals two packages of Rit Powder. There are 35 beautiful colors to choose from.

### Basic Knots and Folds.

**The Rosette Knot:** For a simple rosette, pinch fabric up, secure with bands. For a sunburst effect, add rubber bands (second diagram).

**The Donut Knot:** Make a rosette knot. Push center through to other side. Fasten tightly in place with rubber bands. For 2-color effect, apply secondary color with eye dropper into donut center. Complete instructions in the far column.

**Stripe:** Place fabric straight and mark place where stripe is desired. Gather between thumb and forefinger. Secure with rubber bands. For a broad stripe, use many bands together or a few wide bands. Use single or thin bands for narrow stripes.

**Gathering:** Grab edges of fabric and gather entire piece into both hands. Secure with rubber bands. For an irregular effect use bands of several widths, at varying distances and with different tensions.
