CollectiOnLine Studio

The studio is located in Italy and consists of two stylists. For more than twenty years, we have designed men's, ladies' and children's shoes.

CollectiOnLine Studio has worked with important Italian and European brands. We personally visit our clients and important stores in Europe to know the best-selling items and have a feedback from the final buyer.

We always visit the best fairs in Italy, in order to research for our collections. We offer to our customers designs, materials, accessories and colors that are suited to the market demands and current fashion trends.

It is important for our clients to rely on professionals who can meet their needs and enhance their position in the market.

**We at Shoestosee can provide to you new projects.
Send us a mail with your requests.**
