Spring/Summer 2019

Book N° 1

Since 1996 I have gained significant experience as a designer of men's/women's footwear and men's/women's leather goods.

I developed a high technical knowledge, ranging from materials to components.

I worked with the duties of technician\pattern maker, stylist and head of Italian and foreign samples.

All this collaborating as a freelance with medium-high target companies and style offices.

**We can also provide to you new projects.
